

Android/Chromebook Wireless Connection — WC-Public

Go to **Settings** > **Wi-Fi** and click on “**WC-Public**”.

DISREGARD THE USERNAME AND PASSWORD BOXES and click “**Register**” beneath the “Sign On” button.

***If the ‘pop up’ does not appear, please open a browser and go to www.westminster.edu ***

Please fill out the form with your information so an account can be created and click “**Register**”.

The image shows two screenshots from an Android device. The top screenshot is the 'Wi-Fi' settings page, where the 'WC-Public' network is selected. The bottom screenshot is the 'Guest Portal' sign-in page. It features a 'Sign On' section with fields for 'Username' and 'Password', a link to 'Please read the terms and conditions', a checkbox for 'I agree to the terms and conditions', and buttons for 'Sign On' and 'Register'. A red arrow points from the 'Register' button in the second screenshot to the text in the first screenshot.

The image shows a 'Create Account' form on the Guest Portal. It includes fields for 'First name*', 'Last name*', 'Email address*', 'Phone number', 'Company', and 'Reason for visit*'. At the bottom, there are buttons for 'Register' and 'Cancel'.

Click “**Sign On**”. At this point you should receive an email from “lishelp” that contains your login credentials.

You will be redirected to the login page where you will now enter your username and password that you received in the email. Then click the checkbox to agree to the terms and click “**Sign On**”.

You should then see “Connected” beneath WC-Public in your list of available networks.
